

ATHLONE CASTLE  
VISITOR CENTRE

## **Cleaning and Sanitising of Audio Guides**

Season 2021

Athlone Castle provides audio guides free of charge available in German, French, Spanish, Italian, Portuguese and Mandarin Chinese.

Audio guides are cleaned and sanitised before and after each use.

An intense procedure is applied to sanitise them: The surface of the device is cleaned with single-use disinfectant wipes. Instead of drying the device with a cloth, we wait three minutes for the liquid to evaporate in order to extend its action time.

Please make sure to remember to bring your own headphones with you if you intend to use our audio guides during your visit as they will not be supplied for hygiene reasons. A standard headphone jack is required on your personal headphones for the use of our audio guides. There is no Bluetooth service available.

We will continue to monitor and update our Visitor Policy in line with best practices and advice from the HSE and the Government.
