Ireland's Hidden HEARTLANDS

50 THINGS TO DO for kids

1. Scavenge with your senses

Touch, hear, see and smell the world around you when you go on the scavenger hunt for the senses at The Organic Centre, or simply stroll through the Centre's orchard and lovely garden down to the Ballagh River.

theorganiccentre.ie

2. Find the Giant's Leap Chasm

Explore Cavan Burren Park and find the spot where, folklore tells us two young giants, Lugh and Lag, challenged each other to jump a gorge to impress the female giant they admired.

cavanburrenpark.ie

3. Find the source of the River Shannon

Discover the pool where Ireland's longest river rises. Legend says that Sionnan, the daughter of Lodan (a son of the Celtic God of the Sea, Lir) came here in search of the great Salmon of Wisdom, angering the salmon into overflowing the pool and creating the river!

4. Build your own bear

Choose, stuff and sew your bear at a family workshop with Bear Essentials, or call in to buy a kit so you can make your own teddy at home.

beaessentials.ie

5. Canoe like a Canadian

Set off on an expedition in a Canadian Canoe with Adventure Gently in northwest Leitrim, and discover a whole new world.

adventuregentlyireland.com

9. Experience the world from the treetops

Lough Key's tree canopy walk raises you up nine metres above the woodland floor to get a birds-eye view of the forest. If you're feeling brave make a swift descent from the trees on a zipline!

6. Step inside a mountain

Put on a hard hat, step into the heart of a Roscommon mountain and hear first-hand tales from former miners at the Arigna Mining Experience.

arignaminingexperience.ie

8. Walk on water

Walk on water when you step out onto the amazing 600m floating walkway at Acres Lake.

10. Swim on the wild side!

There's no better way to get under the surface of the wild landscape than to go wild swimming. But whether you run straight in or you inch gingerly into the water, Lough Keeldra, with its sandy floor, is ideal!

explore.outdoorswimming.ie

7. Become an explorer on the Drumshamazon

Join a SUP safari on the Shannon Blueway at Drumshanbo, along the Lough Allen Canal. Enveloped in a dense tree canopy that arches overhead like a cavern, you can imagine yourself in the Amazon Rain Forest. No wonder locals call it the Drumshamazon!

49. Build a den in the woods

Find a hiding hole, lean branches against a fallen tree, or let your inner architect get to work as you craft a den from branches and leaves in the forests of Ireland's Hidden Heartlands.

50. Make a heartlands home for minibeasts

When you visit any of the many forest parks in Ireland's Hidden Heartlands, find a nice safe spot to build a home for some of the smallest creatures in our woodlands. Plant a circle of sticks in the ground and fill it with small twigs laid flat or stack some logs and stuff dead leaves and grass into the holes between them.

Amazing Nature

Watch out for the whoopers!

When we think of our native birds flying south for the winter, our minds often turn to the mass exodus of swallows, martins, swifts, warblers and, of course, terns.

But the same change in the seasons also brings many birds back to Ireland to over-winter, including our true native whooper swans, who return to Ireland's Hidden Heartlands from their sub-arctic nesting sites.

From mid-September onwards, reports start to filter in of our wintering geese and swan populations arriving. The polar winds that carry our summer migrants south bring an influx of over 50 waterbird species to us from northerly latitudes. As we start to fuss about the wind and the rain, they are coming to escape the snow-clad, frozen north!

Listen out for the evocative call of the whooper swans that spend their winter at many midland loughs. Listen too for the endangered curlews that choose bogs and wetlands as their winter home.

Forage for fun!

Late summer is a great time to go foraging for food like wild blackberries, elderberries and hazelnuts in our hedgerows and woodlands. Don't forget to gather horse chestnuts for epic conker battles in autumn, and make sure you forage only your fair share, leaving lots of berries and other tasty morsels for the birds and wildlife in the Hidden Heartlands to enjoy.

Watch night-time acrobatics

Throughout the Hidden Heartlands, on any calm and dry evening, you should find good numbers of bats along woodland trails, over lakes and canals and in or around old buildings. As Halloween approaches, why not set out after dark to watch these gentle creatures glide and swoop as they feed on up to 3,500 moths and midges each a night?

top tips

Stop and listen

Birdsong, the gentle splash of waves on the lakeshore, and laughter are all part of the Heartlands experience. Don't forget to stop and take them in.

Pass it on!

Send a postcard from your travels telling a friend about a great experience that you've loved and they shouldn't miss out on!

Bogs

Ireland's amazing bogs are home to thousands of rare species, including the flesh-eating sundews which trap and kill insects for food. Our bogs get their superpowers, and the bounce they give you underfoot, from super-absorbent sphagnum mosses – there are dozens of them, each with their own character. Scientists have counted 50,000 sphagnum plants in a hummock measuring just one square metre!

Our bogs are home to a dazzling array of wildlife, from frogs and giant water-walking spiders to rare birds, including the beautiful curve-beaked curlew. And, when bogs are wet, they are a powerful weapon against climate change.

Did you know bogs trap and store more carbon and other gases than all of Ireland's other ecosystems combined?

Today, healthy bogs are quite rare. That's because, for many years, they were drained and their turf was used for fuel and garden compost. Of Ireland's original boglands (once covering 310,000 hectares), just one per cent remain active, growing and living as they should. You'll find most of those living bogs here in the Hidden Heartlands where lots is being done to restore these fascinating places. Why not visit one to find out what you can do to help our bogs (and our planet) survive and thrive!

Water Safety

Follow the advice of Water Safety Ireland:

1. Beware of submerged objects.
2. Always enter the water feet first.
3. Cold water in lakes can be dangerous – it is often much colder beneath the surface than you think.
4. Do not play near the edge of riverbanks – they can crumble away suddenly.
5. Do not retrieve model boats by wading in
6. Never walk on ice covered waterways.
7. Reeds and grass often obscure the edge of the pond.
8. The banks of a pond may be weak and give way under your weight.

Leave no trace

Follow seven simple principles to make sure you leave the landscape as you found it with no trace of your visit:

1. Plan ahead and prepare.
2. Be considerate of others.
3. Respect farm animals and wildlife.
4. Travel and camp on durable ground.
5. Leave what you find.
6. Dispose of waste properly.
7. Minimise the effects of fire.

Accessibility Notice

While we have indicated the places which are accessible to the widest possible number of visitors, do check individual websites or contact businesses and attractions directly to find out whether the accessibility arrangements at each site are suitable for you.

NB

Due to Covid-19 protocols, many of the attractions and businesses now require pre -booking. Be sure to check availability and opening hours before setting off!
